Using a working set limited to 1500 pages and 895 pages of data storage (excluding image)

Total number object records read (both passes): 1684
 of which 770 were in libraries and 35 were DEBUG data records containing 2609 bytes

Number of modules extracted explicitly = 17
 with 4 extracted to resolve undefined symbols

15 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
